

NOTICE OF LANDSCAPE APPLICATION

Date of Application: April 15, 2026

Location: Oak Leaf Park

Reason for Application: As part of our organic pilot program, this park is being treated with a natural soil-enhancement blend designed to improve overall turf health and resilience. This application includes a combination of organic inputs that support beneficial soil microbes, enhance nutrient availability, and promote stronger root development.

Product Manufacturer Name: Organic Approach HyphaLink Nourish

-Active ingredients: N/A

-Precautionary statement: No hazards

Product Manufacturer Name: ThermX 70 Soil Conditioner

-Active ingredients: Saponin extracted from Yucca Schidigera

-Precautionary statement: No hazards

Product Manufacturer Name: Elm Dirt Bloom Juice

-Active ingredients: N/A

-Precautionary statement: Avoid contact with eyes, mouth, and broken skin. Do not inhale product.

***See attached labels**

***Dates are subject to change due to weather**

HyphaLink Nourish is a plant-balanced mixture of soluble humate, soluble seaweed extract, beneficial bacteria, and essential plant vitamins. It is designed to be an effective biological food substrate for use on all types of plants and in all types of soils.

Recommended Dilution Ratios:

3 teaspoons = 1 tablespoon
1 tablespoon = ½ dry ounce

HyphaLink Nourish	Vol. of Water
2 teaspoons (9.45g)	1 gallon
10 teaspoons (47.25g)	5 gallons
16 tablespoons (8oz)	25 gallons
1 pound	50 gallons
2 pounds	100 gallons
4 pounds	200 gallons

Keep out of the reach of children

Notice: It is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result due to factors that are beyond the control of Organic Approach or the seller. The buyer or user shall assume all such risks.

Warranty Disclaimer: Organic Approach warrants this product conforms to the description on its label and is reasonably fit for the purposes described on its label. In no event shall Organic Approach or the seller be held liable for any incidental, consequential, or special damages resulting from the use or handling of this product. The exclusive remedy of the buyer or user for all claims shall be the return of the purchase price of the product.

HyphaLink Nourish

Biological Plant Supplement

100% Soluble Formula

HyphaLink Nourish is not a plant food

Contains Soluble Humate, Soluble Seaweed Extract, Beneficial Bacteria, and Essential Plant Vitamins

Net Weight: 50 lbs.

DO NOT STORE IN DIRECT SUNLIGHT

Description For Use:

HyphaLink Nourish is compatible with most materials, except those with a very low pH (less than 4.0). It is not compatible with calcium nitrate (sodium nitrate is ok). To be safe, an initial jar test is always recommended when mixing this product with companion materials for the first time.

HyphaLink Nourish is designed to be an easy to use product that provides a balanced ratio of each ingredient when diluted with water. To retain its original purity keep the container tightly sealed between uses. Dilute only as much concentrate as needed for each use. We suggest pre-mixing the powder with water in a separate container before adding it to the final spray tank to ensure maximum dissolution, especially in cold water.

HyphaLink Nourish is suitable for conventional liquid foliar and irrigation water applications. It does not need to be watered in for efficacy. It is not recommended to use this product through drip tape unless it is filtered through a 200-mesh screen first.

When possible, foliar applications should be made in the morning hours to reduce leaf surface drying time and minimize the potential for encouraging disease activity.

At higher concentrations in solution, this product has the *potential* to stain or tint surfaces, such as concrete walks/drives, fencing, siding, plant foliage, flower petals, etc. Always test a small area when using the product for the first time to determine if there is any coloration the way you wish to use the product. If necessary, reduce the concentration in water until you find the threshold of acceptable coloration for your unique circumstances.

Turf, Fairways, Greens, and Tees		Woody Ornamentals and Vegetative Crops	
Rate Per Acre	Frequency	Rate per 100 gallons	Frequency
5 dry ounces	once per week	8 ounces	once per week
10 dry ounces	every two weeks	16 ounces	every two weeks
20 dry ounces	once per month	32 ounces	once per month
32 dry ounces	max one-time rate	The best results are always achieved by using lower rates at more frequent intervals.	

Pastures and Forage Crops		Other Applications	
Rate Per Acre	Frequency	Rate per gallon	Frequency
1 pound	per application	Potted Plants – ½ tsp	every 1-2 weeks
For best results, the grass/crop should be 8" or higher at the time of application.		Transplants – 2 tsp	foliar and root soak

ThermX⁷⁰™

SOIL
CONDITIONER

Natural Wetting Agent

DIRECTIONS FOR USE:

SOIL: Use one pint (16 oz.) per acre.

PROBLEM SOIL: For saline, alkali, and water penetration problems, use 1 quart (32oz.) per acre, first application.

ROW CROPS: Mix with starter or side dress fertilizer. Can also be metered into first irrigation water.

TREES AND VINES: Dilute in sufficient water for coverage and spray soil surface to be irrigated or meter into first irrigation water.

PLANTS: Use eight fluid ounces (8 oz.) per 100 gallons of water to reduce surface tension and improve wetting in agricultural sprays.

TRANSPLANTS: Mix with transplant water to apply one pint (16 oz.) per acre.

ACTIVE INGREDIENT:

By Wt. 20%.....Saponin extracted from
Yucca schidigera.

INACTIVE INGREDIENT:

By Wt. 80%.....Other water soluble
substances extracted
from Yucca schidigera.

100%

* If foaming is a problem,
use an anti-foam agent
in the spray formulation
or fertilizer solution.

SAFE HANDLING OF PRODUCT

Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear (specific protective eyewear, protective clothing, and gloves if appropriate).

FIRST AID:

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by a poison control center or doctor. Do not give anything to an unconscious person.

If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

Notice To Buyer:

Seller makes no warranty, expressed or implied, concerning the uses of this product other than indicated on this label. Buyer assumes all risk of use or handling of this material when such use and/or handling are contrary to the label instructions.
