

# SUMMERLIN PARKWAY TRAIL PROJECT

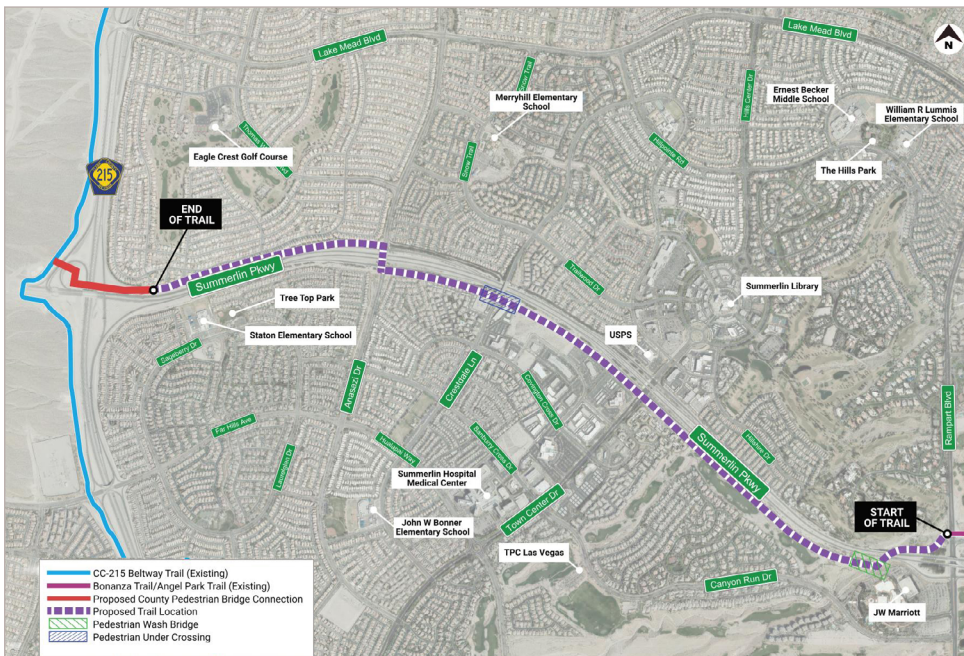

## CC-215 to Rampart Boulevard

### WHAT WE'RE BUILDING

The City of Las Vegas is constructing a 3.5-mile shared-use trail between the Summerlin Interchange and Rampart Boulevard along Summerlin Parkway including one trail pedestrian bridge at the Wash crossing, one trail pedestrian undercrossing structure at Crestdale Lane, and three at-grade crossings at Anasazi Drive, Town Center Drive and Rampart Blvd.

The trail will connect the existing CC-215 Beltway Trail with the Bonanza Trail, and tie into a pedestrian bridge spanning CC-215 which is currently under construction as part of Clark County's Summerlin Interchange project. From the Summerlin Interchange to Anasazi Drive, the trail will run adjacent to Summerlin Parkway on the north side of the roadway. The trail will then switch to the south side of Summerlin Parkway between Anasazi Drive and Rampart Blvd.

### PROJECT MAP

### ABOUT THE PROJECT

12-foot-wide asphalt pathway

**Project Cost:** \$26 million

#### Funding:

95% Federal Highway Administration (FHWA)/ Congestion Mitigation and Air Quality Improvement (CMAQ) Program;

5% Regional Transportation Commission (RTC) of Southern Nevada

#### Construction

**work hours:** 7am-6pm

**Project duration:** 18 months

### FEATURES AND BENEFITS

- The new 3.5-mile trail will provide a dedicated outdoor space for physical activity by offering a safe, aesthetically pleasing location for running, walking, and cycling
- The proposed pedestrian bridge and tunnel will improve connectivity of Summerlin trail system
- The trail will include new lighting, fencing, and trash receptacles

## CC-215 to Rampart Blvd

### PROJECT SCHEDULE

Phase	Q3 2025	Q4 2025	Q1 2026	Q2 2026	Q3 2026	Q4 2026	Q1 2027
1	<b>CC-215 to Anasazi Drive</b> Summer 2025 to Summer 2026						
2	<b>Anasazi Drive to Crestdale Lane</b> Summer 2025 to Summer 2026						
	Crestdale Underpass						
3	<b>Crestdale Lane to Town Center Drive</b> Summer 2025 to Summer 2026						
4	<b>Town Center Drive to Rampart Boulevard</b> Summer 2025 to Spring 2027						
	Wash Pedestrian Bridge Structure						

### TRAFFIC IMPACTS

The City of Las Vegas is working closely with Clark County's Summerlin Interchange team to minimize traffic impacts throughout construction.

- Minimal impacts to Summerlin Parkway are expected
- Lane Restrictions are anticipated as trail crossings at Anasazi Drive, Crestdale Lane, Town Center Drive and Rampart Boulevard are constructed
- During construction of a tunnel at Crestdale lane, a full roadway closure will be necessary for public safety. This closure is currently scheduled to begin in early 2026 and be in place for several months.
