

SUMMERLIN PARKWAY TRAIL PROJECT

CC-215 to Rampart Boulevard

UPDATE: Upcoming Full Closure of Crestdale Lane

The City of Las Vegas is making swift progress on the new 3.5-mile shared-use trail between the Summerlin Interchange and Rampart Boulevard adjacent to Summerlin Parkway. In the past few weeks, crews have removed shrubs and installed foundations for lighting along the trail.

In late January 2026, the City of Las Vegas will close Crestdale Lane between Covington Cross and Trailwood drives for three months to enable the construction of a trail tunnel underneath Crestdale Lane.

During this time, crews will excavate below Crestdale Lane on the south side of Summerlin Parkway to build a new tunnel, install electrical for lighting, grade the trail path, and pave the final alignment.

This trail will ultimately connect the existing CC-215 Beltway Trail with the Bonanza Trail and tie it into a pedestrian bridge spanning CC-215, which is currently under construction as part of Clark County's Summerlin Interchange project.

The segment now under construction stretches from Summerlin Parkway to Anasazi Drive, running alongside the north side of Summerlin Parkway, then switching to the south side of Summerlin Parkway between Anasazi Drive and Rampart Boulevard.

ABOUT THE PROJECT

12-foot-wide asphalt pathway

Project Cost: \$26 million

Funding:

95% Federal Highway Administration (FHWA)/ Congestion Mitigation and Air Quality Improvement (CMAQ) Program;

5% Regional Transportation Commission (RTC) of Southern Nevada

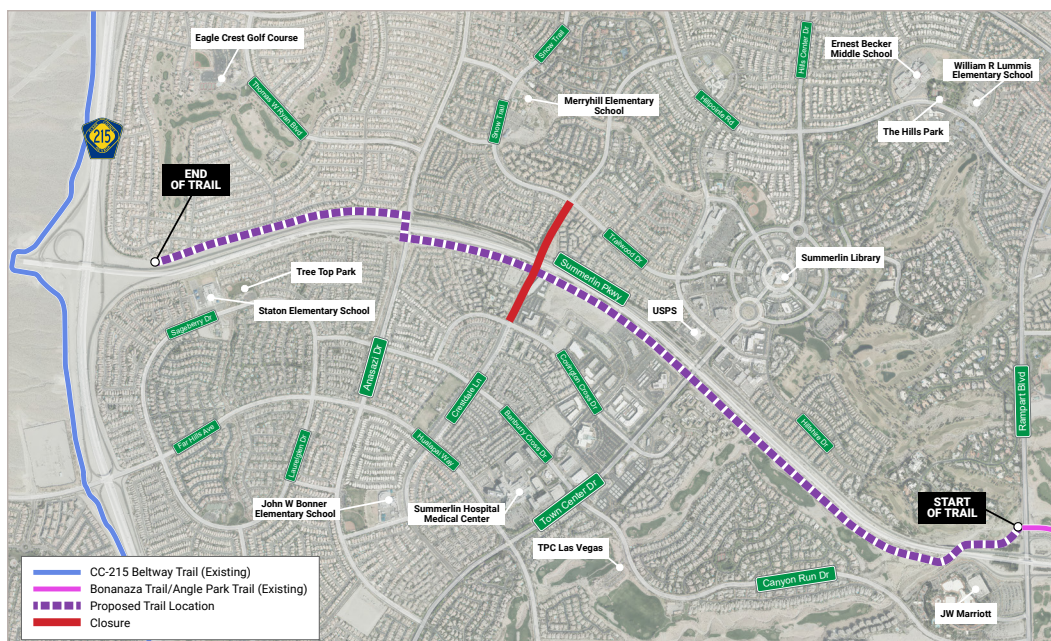

Construction

work hours: 7am-6pm

Project duration: 18 months

FEATURES AND BENEFITS

- The new 3.5-mile trail will provide a dedicated outdoor space for physical activity by offering a safe, aesthetically pleasing location for running, walking, and cycling
- The proposed pedestrian bridge and tunnel will improve connectivity of Summerlin trail system
- The trail will include new lighting, fencing, and trash receptacles

SUMMERLIN PARKWAY TRAIL PROJECT

CC-215 to Rampart Blvd

PROJECT SCHEDULE

Phase	Q3 2025	Q4 2025	Q1 2026	Q2 2026	Q3 2026	Q4 2026	Q1 2027
1	CC-215 to Anasazi Drive Summer 2025 to Summer 2026						
2	Anasazi Drive to Crestdale Lane Summer 2025 to Summer 2026						
3	Crestdale Lane to Town Center Drive Summer 2025 to Summer 2026						
4	Town Center Drive to Rampart Boulevard Summer 2025 to Spring 2027						

TRAFFIC IMPACTS

The City of Las Vegas is working closely with Clark County's Summerlin Interchange team to minimize traffic impacts throughout construction.

- Minimal impacts to Summerlin Parkway are expected
- Lane Restrictions are anticipated as trail crossings at Anasazi Drive, Town Center Drive and Rampart Boulevard are constructed
- During construction of a tunnel at Crestdale lane, a full roadway closure will be necessary for public safety. This closure is currently scheduled to begin in January 2026 and be in place for three months.
